

Welcome!

**The webinar will begin at
2:00 Eastern/11:00 Pacific**

Audio Tips

Today's audio is streaming to your computer's speakers or headphones.

Too loud or soft? Adjust volume level in the Audio broadcast box:

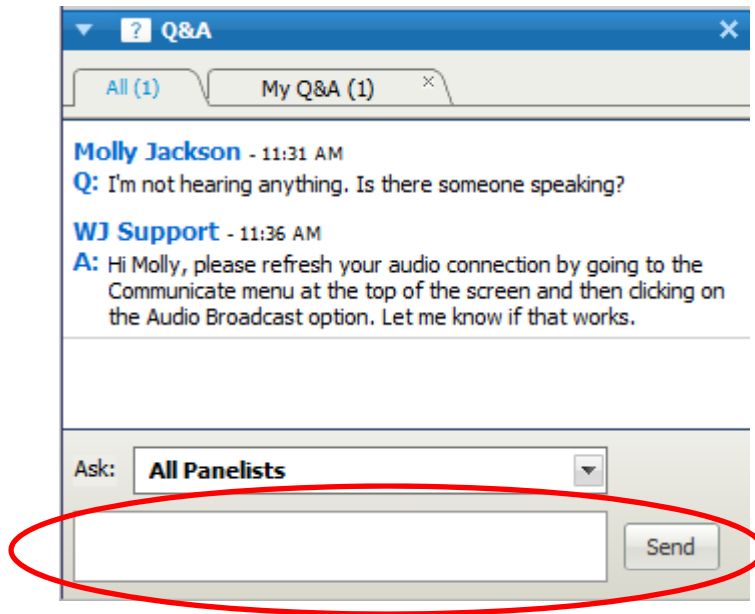

Lost all sound? Hear an echo? Click on the **small radio tower icon** (above chat box) OR go to the **Communicate** menu (at the top of the screen) and select **Audio Broadcast** to refresh your connection.

Need Help?

Please post **technical support questions** into the **Q&A Panel**.

Step 1: Type the problem in the **dialog box**.

Step 2: Click **Send**.

Chat Etiquette

Use **Chat** to talk with attendees and presenters about the topic.

Do not post technical questions to Chat.

And if you're tweeting, use these hashtags: **#wjwebinar #libs4health**

Customize your experience

Panels can be opened or closed by clicking on the panel name at the top of the column, or by using the X in the individual panel.

Hover over edge of panels to drag and resize.

The screenshot shows a webinar interface with two main panels: 'Participants' and 'Chat'. The 'Participants' panel is at the top and includes a header with a close button (X) circled in red. Below the header, it shows 'Speaking: Jennifer Peterson (Host)', 'Panelists: 3' (listing Jennifer Peterson, Susan Pieper, and Marci Merola), and 'Attendees: 1 (1 displayed)'. The 'Chat' panel is below and shows a message from 'WJ Support to All Participants' with a 'Send' button. A red arrow points to the right edge of the 'Chat' panel header, and another red arrow points down to the close button on the 'Participants' panel header.

Closed Captioning is available

- Open **Media Viewer** from Panel options.
- Adjust **font**.
- Select **Show/Hide Header**.

The screenshot displays the 'Media Viewer' window. At the top, the title bar says 'Media Viewer'. Below it, the text reads 'You are connected to event: WebJunctionTest'. There are three settings: 'Themes:' with a dropdown set to 'Default', 'Font Size:' with a dropdown set to '14', and 'Font Fa:' with a dropdown set to 'Arial'. A list of font sizes (14, 18, 24, 30, 36, 42, 48, 54, 60, 72, 84, 96) is open next to the 'Font Size:' dropdown. At the bottom right, there is a 'Show/Hide Header' button. The footer contains 'Copyright © 2010'.

Telephone Access

If you not able to listen via your computer, you may join by phone.

Step 1: At top left corner, select

Communicate > Teleconference >Join Teleconference.

Step 2: Call the toll-free number provided.

Step 3: Enter the **Access Code** provided.

Ensuring eHealth Equity From Enrollment to Outcomes

By Tessie Guillermo Monday, 30 September 2013 - 10:54am

At [ZeroDivide](#), our work in the health field focuses on leveraging [eHealth tools](#) (electronic health resources and health care delivery tools) to decrease the persistent disparities in health outcomes for low-income communities, communities of color and other underserved groups. eHealth tools are powerful and in many instances, game-changing. They can lower costs, increase efficiency, enhance patient experience, improve care coordination and medication adherence... but employed indiscriminately, these promising tools can also widen existing health gaps.

HIGHLIGHT

Download our report "Funding Mobile Strategies for Social Impact" ... [Read More](#)

The Affordable Care Act

Expansion of insurance coverage

Reduction in cost of care

Increase in preventative care

New demand for eHealth services

eHealth

Personal health records (PHRs) and patient portals

Disease management tools

SMS and mobile apps

Barriers to eHealth Adoption

Digital Divide

- Access to broadband and mobile data
- Access to technology platforms
- Interoperability of tools across platforms

Design and Usability

- Linguistic/cultural competency of tools
- Limitations caused by disability
- Technological literacy

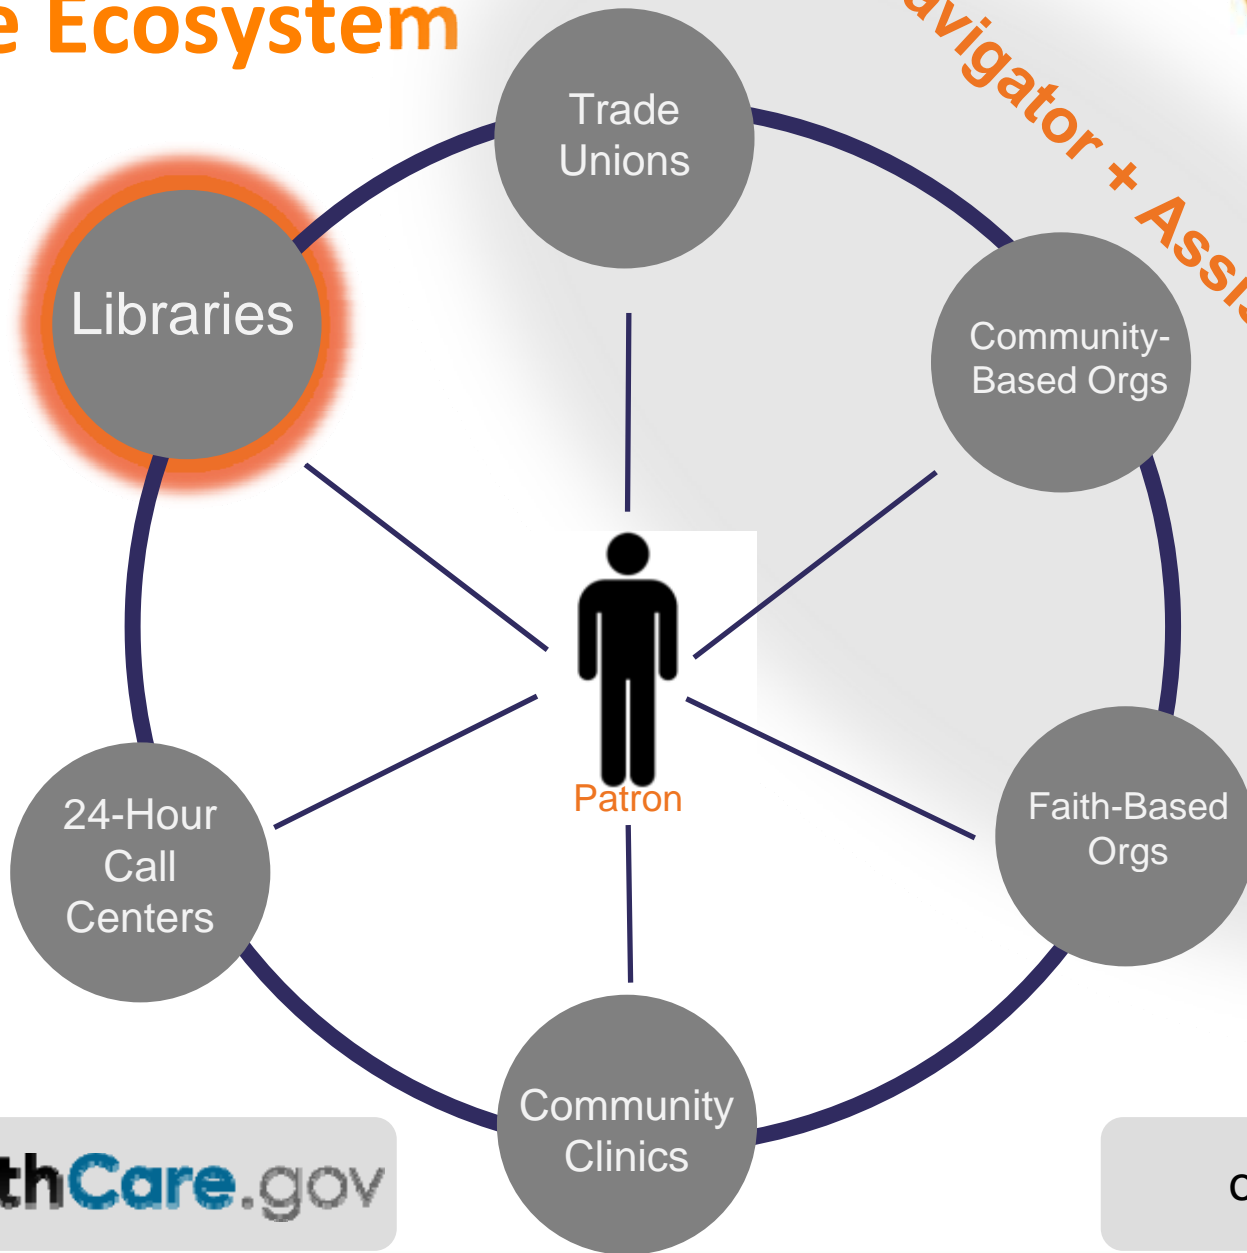

Education and Awareness

- Patient awareness of eHealth and incentives
- Physician awareness and incentives
- Health literacy
- Privacy concerns and distrust

The Ecosystem

Navigator + Assister Network

Tech Capacity Matrix

Leadership, Communications & Delivery

Developing

- Break and fix
- Minimum performance metrics for guiding on/off line activities
- Inconsistent use of tech in program and service delivery

Aspiring

- Leadership support in strengthening tech
 - Communication planning processes in place
- Systematic efforts to leverage tech with understanding of constituents

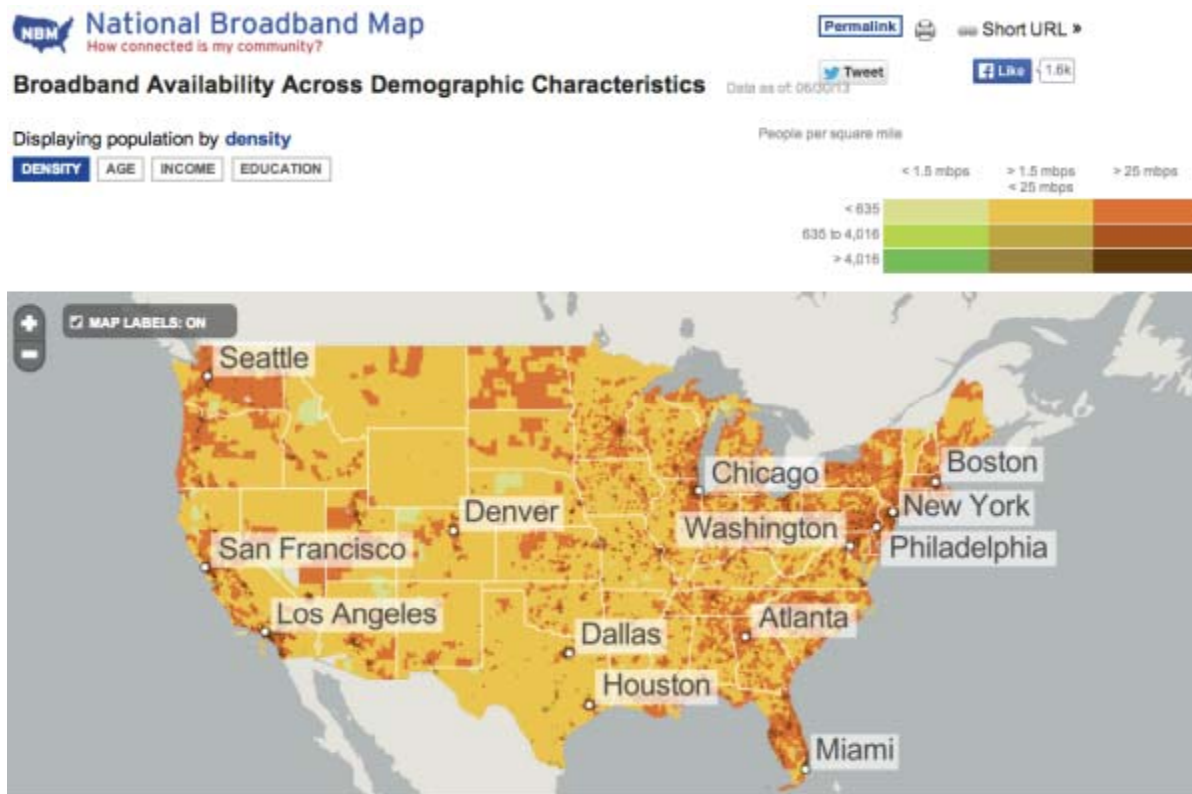

Promising

- Tech seen as strategic tool to achieve cross functional strengths
- Communication plan with clear goals, metrics
 - Constituent perspectives incorporated into program designs

Leading

- Sustained tech integration; review process
- Analysis/review of communications toward mission outcomes
 - Constituent appropriate tech infusion; mobile tech

Broadband & Digital Literacy

70%

have connections at home

80 million

people rely on libraries for broadband connectivity

Tech Literacy

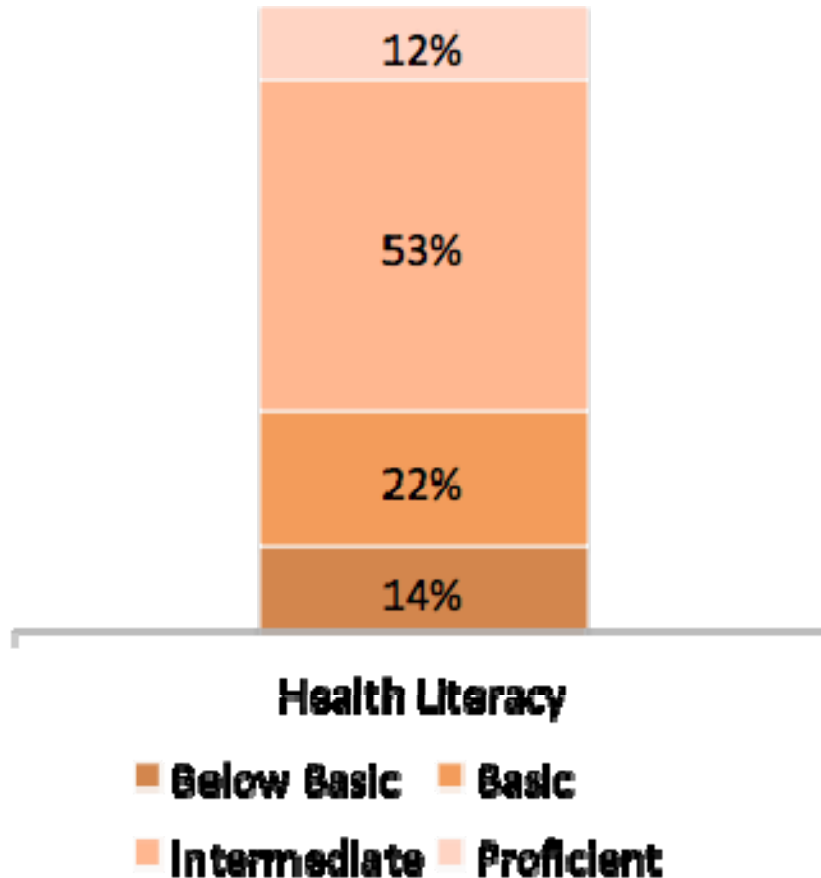

- 72% of internet users have searched for health information online
- 53% of adults with 1 or more chronic conditions have search for health information online

- 31% of mobile phone owners and 52% of smartphone owners have searched for health information using their phone
- 19% of smartphone owners have downloaded an app

Health Literacy

- Annual cost of limited health literacy is \$106-238 billion dollars
- Roughly the same cost as insuring all of the 47 million uninsured

HEALTH INFORMATION ONLINE

- One in three American adults have gone online to figure out a medical condition.

- Health Online 2013. Susannah Fox and Maeve Duggan. Pew Research Internet Project. <http://www.pewinternet.org/2013/01/15/health-online-2013/>

HIPAA

- Health Insurance Portability and Accountability Act of 1996 (HIPAA)
- <http://www.hhs.gov/ocr/privacy/hipaa/understanding/>
- HIPAA Compliant entities:
 - Health Plans
 - Most Health Care Providers
 - Health Care Clearinghouses

ONLINE INFORMATION SHARING

- A tremendous amount of health-related information is found on the Internet. Many discussion forums are available for individuals to share information on specific diseases and health conditions. Websites dispense a wide variety of information. There is no guarantee that information you disclose in any of these forums is confidential. *Always review the privacy policy of any website you visit.*

PHRs AND PRIVACY

- Not all Personal Health Records (PHRs) are mandated to be HIPAA compliant.
- When selecting a PHR, individuals should evaluate privacy policies to decide if they are comfortable with the protections and rights offered, such as how their information will be safeguarded, for what purposes their information will be used and disclosed, and the extent to which the individual will control access to information in the PHR.

- Are PHRs Covered Under HIPAA?
